MR. A. NARAYANA IYENGAR (Hassan Taluk).—

Q.—27. Will the Government be pleased to state:—

(*a*) The number of process-servers and amins existing in each Civil Court of the Mysore Division?

(*b*) How many of the amins and process-servers are remaining in the same court for over five years?

(*c*) (i) How many amins and process-servers are remaining in one and the same court ever since their first appointments? (ii) What is the length of service put in by these officials in those courts? (iii) What is the reason for not transferring them to other courts?

CHIEF SECRETARY TO GOVERNMENT.—

A.—27. (*a*), (*b*) and (*c*) (i) and (ii) *Vide* statement appended (*vide* Appendix).

(*c*) (iii) It is not usual to transfer members of the process-staff except on complaints either from the presiding officers or from the litigant public, as they are low paid officials. So far as the transfer of servers in particular is concerned, it is prohibited under Article 606 of the Mysore Service Regulations except for special reasons as they are inferior servants.

Supplementary Question and Answer.

Mr. A. Narayana Iyengar.—

In answer to (*c*) it is stated that it is not usual to transfer the process staff except when there are complaints against them. Are not police constables who draw the same pay transferred from one place to another?

Chief Secretary to Government.—

Not ordinarily.

Dewan.—

However, the High Court will be consulted in the matter of transferring process servers and amins.

MR. A. NARAYANA IYENGAR (Hassan Taluk).—

Q.—28. Will the Government be pleased to state:—

(*a*) The number of graduates of the Mysore University who are unemployed? (The number of graduates holding different degrees should be given separately.)

(*b*) How many graduates come out of the Mysore University successfully every year? (The number for each degree should be separately given.)

(*c*) What is the arrangement made by Government till now to solve the problem of unemployment of these graduates?

SECRETARY TO GOVERNMENT, GENERAL DEPARTMENT.—

A.—28. (*a*) Information is not available.

(*b*) A statement furnishing the information is placed on the table (Appendix).

(*c*) The problem is beset with difficulties and does not admit of any simple arrangement. Government have been taking all possible steps in the matter.

Supplementary Questions and Answers.

Mr. A. Narayana Iyengar.—

Is it not possible to find out how many graduates are engaged in the legal profession and how many in Government service?

Secretary to Government, General Department.—

Information is not readily available.

Mr. A. Narayana Iyengar.—

Would it be possible at least to ascertain the number of unemployed graduates?

Secretary to Government, General Department.—

No useful purpose would be served by it.

Mr. A. Narayana Iyengar.—

What do Government propose to do for the unemployed graduates?

Dewan.—

If you have any suggestions to make, you can place them before the Government. Government have opened an agricultural colony. Recently the Sugar Factory has employed several graduates. Government are doing their best, but the question is not easy of solution.

Mr. G. Girimaji Rao.—

One way of solving the unemployment problem among the graduates would be to give each of them four acres of land under the Irwin Canal area, free of cost, for cultivation and some money for the purchase of agricultural implements. Another scheme is to give each one of them four acres of wet and four acres of dry land free of cost. If any of them want to carry on *bagayet* cultivation, give them some money free of interest.

Dewan.—

Agriculture is not very remunerative in these days unfortunately.

Mr. G. Girimaji Rao.—

It will at least provide enough livelihood. A third scheme is to extend the Mysore State Life Insurance Scheme and appoint a large number of qualified agents or canvassers.

Dewan.—

Better please send up a scheme in writing.

Mr. T. Mariappa.—

Are the Government aware that in all western countries, statistics of unemployed people are maintained and is it not desirable to maintain similar statistics in the State also? Would it not be better to appoint a committee to go into the matter and submit recommendations?

Mr. J. Mahomed Imam.—

Is not unemployment among the graduates due to the fact that all of them cannot be absorbed in Government service and the present day University education is not suited to any other walk of life than Government service?

Second Member of Council.—

The University would be in a better position to answer that question. Being on the Senate, you may ask the question there.
